

GPSR Safety Certificate

Product Name: Chest Extension (T-Closure) for Horse Blankets

Item: SR10273

Intended use:

Chest expansion is used to enlarge the chest area of a horse blanket to optimize the fit on horses with wide chests. It attaches between the front fasteners of the blanket and provides additional comfort and freedom of movement. The product may only be used in combination with a suitable horse blanket. It is intended exclusively for intended use on horses and may not be used as a stand-alone cover, protective device or restraint.

Material information:

The T-chest extension is made of durable, high-quality nylon, which is characterized by high tear resistance, dimensional stability and longevity. The material is tightly woven, easy to care for and suitable for daily use in the stable as well as outdoors. The integrated T-fasteners are made of robust, durable material and ensure secure, reliable fastening and easy handling. The combination of materials ensures overall stability, resilience and a long service life.

Security rating:

The product has been tested for safety, material quality and workmanship.

When used properly, there are no risks to consumers or animals.

The product meets the requirements of EU Regulation (EU) 2023/988 (General Product Safety Regulation – GPSR).

Warnings:

- Only use for its intended purpose as an extension in the chest area of a horse blanket.
- Before each use, check for damage, loose seams, tears or broken fasteners.
- If the breast expander is damaged or heavily worn, it must not be used.
- The product may only be used in combination with a suitable horse blanket.
- Check the fit regularly to avoid pressure points or chafing.
- Do not leave the horse unattended, especially in the box or pasture if there is a risk of getting caught.
- Do not make any unauthorized changes or repairs to the product.
- Clean only according to care label - do not use chemical cleaners, bleach or solvents.
- After cleaning, allow to dry completely before reusing or storing the product.
- Do not store or dry near open flames, heat sources or chemical substances.

Disposal information:

The T-chest extension should be disposed of at the end of its useful life in accordance with the regionally applicable disposal regulations. The product is mainly made of nylon and metal components in the fasteners. Separating the materials for feeding into suitable recycling cycles is recommended, provided appropriate options exist. The product must not be disposed of with household waste if local regulations require separate disposal.
